PUBLICATIONS OF THE COMMONWEALTH BUREAU OF CENSUS AND STATISTICS, CANBERRA

INTRODUCTION

This publication lists the current or, as in the case of Censuses, the most recent series of publications issued by the Central and State Offices of the Commonwealth Bureau of Census and Statistics.

It is in two Parts, Part A. relating to the Central Office, and Part B. to the State Offices. Part A. is divided into (i) a List of Publications, and (ii) a Subject Index to facilitate reference to the appropriate publications listed. No index is provided for the State publications listed.

Publications listed herein are grouped into General Publications and Other Publications, and in the case of Central Office a separate group of Population Census Publications is added.

General Publications contain statistics on all major topics. They are, in the main, printed publications which contain statistics on a wide variety of subjects.

Other Publications comprise reports, bulletins, statements, surveys etc., which deal mainly with particular fields or subjects. They are of three kinds:—

- (i) Printed publications (mainly annual) containing detailed tables of the main statistics collected (included in this group are the State Statistical Registers);
- (ii) Supplementary publications in mimeograph form (annual, six-monthly, quarterly and monthly) which advance the statistics contained in (i), provide further detail, or issue new statistics;
- (iii) Preliminary reports of special Surveys or Censuses, such as the Retail Trade and Motor Vehicle Censuses, in mimeograph form.

These publications (except for the Parts of the State Statistical Registers) are listed alphabetically according to topic and periodicity of issue.

Population Census Publications have been issued in respect of each Commonwealth Census taken from 1911 to 1954, namely 1911, 1921, 1933, 1947 and 1954. Only those issued for the 1954 Census are listed in the following pages, but details of publications for earlier Censuses are available on request. Preliminary results of the 1961 Census are currently being issued in mimeograph form.

This publication relates to current and recent issues of Bureau publications only; for a complete list, reference should be made to Section 2. Statistical Publications of Australia of Chapter XXXI of the Commonwealth Year Book.

Central Office publication issues during each month are listed inside the back cover of the Digest of Current Economic Statistics and on the back cover of the Monthly Review of Business Statistics; similar arrangements exist in corresponding publications for State Office issues.

How to obtain Bureau Publications.

Central Office — Publications for which prices are shown in Part A. of this list are obtainable by purchase direct from the Government Printer, Canberra and the Office of the Deputy Commonwealth Statistician and the Commonwealth Sub-Treasury in each capital city, or they may be ordered from the leading booksellers in the principal cities of Australia. A limited number of copies of these publications is available from the Commonwealth Statistician for distribution, free of charge, to members of Parliament, Commonwealth and State Government Departments, public bodies, and publicists etc. Publications with no price shown are available in limited numbers free of charge, upon application, to the Commonwealth Statistician, Canberra. When applying for publications, the reference number in the List and title should be quoted. The prices quoted inclusive of postage refer in general to postage within Australia and other Commonwealth Countries, but postage is higher to foreign countries, and for the Commonwealth Year Book to the United Kingdom and other parts (23s. 11d.).

State Offices — Publications in Part B. are available from the Deputy Commonwealth Statisticians in the several States; those with no price shown are available free of charge similarly to corresponding Central Office publications.

Apart from the issue of publications, each Office provides information in response to individual requests. In certain cases where data must be specially extracted and a regular return is required, a charge is made for supplying this information.

II. SUBJECT INDEX.

This index is designed to show in which Bureau publications information on various subjects is to be found, and to serve as an aid in the selection and ordering of the appropriate publication required. It is not intended as a comprehensive index of commodities or items, and items of production and of oversea trade, for example, are therefore largely omitted. The Table of Contents or Index to the relevant publication itself provides this further reference. Because of the comprehensive range of statistics contained in the Official Year Book and in the Pocket Compendium, no references are given to them in this index. Each of these publications contains a detailed index, and the importance of the former in particular as a general statistical reference work should not be overlooked.
